Dear Applicant,

Thank you for taking the time to learn about London Enterprise Academy (LEA). This pack is intended to give you information about the role and our school's vision and ethos.

The academy opened in a refurbished office block in the heart of London's East end to its first cohort of Year 7 students in September 2014.

We aim to be outstanding in all areas and become a centre of excellence in everything we do. The staff at LEA are reflective, committed professionals, willing to do whatever it takes for our students to achieve the very best results. All students are encouraged to continue their education and to progress to university, and we work closely with local universities and employers to achieve this vision. Fortunately, we have been able to give students access to a level of expertise rarely seen in the state sector.

"The school has designed a rich curriculum for all pupils which is based on the scope and ambition of the national curriculum... This means that, overall, pupils are now learning and achieving well across subjects."
Ofsted, October 2024

In addition to offering a broad and balanced curriculum, the academy places particular emphasis on the development of enterprise skills. We have been able to develop links with employers in the City of London and Canary Wharf to provide mentoring to our students.

At LEA, we develop students who have a passion for learning, enquiry and the maturity to self-direct their studies and take control of their futures.

"Pupils understand and follow the rules and expectations for behaviour. Their positive behaviour supports their own learning, as well as that of others in the classroom."
Ofsted, October 2024

This role represents a unique opportunity to join an academy with the highest expectations for students and staff to help shape the future of the academy. Our facilities include modern classrooms fitted with the latest technology to make working and learning fun and exciting. All of our teachers and students are supplied with iPads to use in school and at home.

I am looking for someone with the necessary skills, drive and experience to excel in this role, also who can up the standard for teachers who join us year after year.

As Principal, there is no greater priority for me than the recruitment and development of staff. My aim at LEA has always been to create a school that is exceptional in everything it does and to do that I need an exceptional team. I understand that I will be asking a lot from the staff, but in return, I can promise extensive support and development opportunities.

After reading the enclosed information, if you would like to apply, please complete the application form that can be found online at www.londonenterpriseacademy.org and return it via e-mail as directed.

I look forward to receiving your application.

Ashid Ali, BSc (Hons), PGCE, MA (Ed), NPQH
Principal

Executive Summary

Our **vision** is to establish an outstanding school that will ensure students achieve personal success in their school life and beyond. We believe success at school provides a strong foundation for students to become engaged citizens who believe in themselves and can bring about positive change, for themselves and the society they live in.

In addition to achieving academic excellence, we instil in every child the beliefs, behaviours and attitudes that will underpin success in life. This means that every student is equipped to:

- Create and seize opportunities for themselves and others
- Contribute to Big Society
- Bridge the skills gap faced by future employers

Our school's ethos supports this vision by creating a school that is sympathetic to the social background of the students given the Tower Hamlets location and pro-active with respect to the unique opportunities this dynamic and well situated borough affords.

Central to our school's ethos is a student-centric and individualised learning approach designed to achieve personal success for each and every student, regardless of where their abilities lie. To fully equip our students as engaged citizens who will have the right skills to be active participants in British society, our curriculum is designed with an emphasis on:

- Academic excellence – our school provides a safe, caring and supportive learning environment in which every individual can beat their personal best. This is achieved through commitment to excellence from all, and no excuses.
- Enterprise – a can do attitude, creativity, informed risk-taking and a drive to succeed. These are all **key** ingredients to success whether in academia, business or social enterprise.

Curriculum and approach to teaching and learning

Alongside our vision for student outcomes, the most significant influence on our choice of teaching approach and on curriculum design is the social background of our students. Thus:

- A small school ethos, human relationships
- We believe that all young people can prosper. This individual attention is most likely to succeed in a small school environment where each child is well known to staff.
- A broad and balanced curriculum taught via a personalised learning methodology that has been proven to deliver excellent results in small charter schools in Sweden and the USA
- An extensive range of extra-curricular activities offered to draw out hidden talent and stretch gifted students
- Home-school relationships are important in engaging parents
- Enterprise

Focus on enterprise

- We want students and the local community to take full advantage of the Tower Hamlets location. With access to the city of London, academic and arts institutions, and technology and creative industries.
- Enterprise focus – can do attitude, drive to succeed and confidence to take risks. It would be a wasted opportunity for students, the local community and the wider economy if the advantages afforded by the Tower Hamlets location made no difference.
- Cater for pupils of all abilities

High expectations and celebrations of pupil achievement

Education is the most effective tool for those seeking to better their quality of life. The solutions to poverty, social exclusion, disadvantage and deprivation lie not with others, but within an individual. The individual has the power to make a positive difference and transform his/her life circumstances as demonstrated by many in our group who set up LEA.

We believe that educational benefit should be measured beyond an exclusively narrow focus on academic attainment. This is not to say that we do not measure academic ability – we do and our standards are very

high. What we do know is that children need a wider range of capabilities when leaving school and our approach to high expectations and pupil achievement reflects this.

We believe that poverty and disadvantage cannot excuse a lack of high expectations amongst our students. Consequently, we set clear aspirations on the achievements that we expect of our pupils.

We celebrate the achievements of our pupils through our reward ladder and ensure that parents are aware of this success. We keep parents informed by telephone, email, text and post, as well as invitations to annual awards and celebration evenings.

Aspirations and outcomes

The immediate catchment area draws young people from disadvantaged communities for whom English is not their first language. Our curriculum has been designed to bolster teaching time for English, Mathematics and Science. Added emphasis on the core subjects improves our pupils' chances of academic success.

Our academic outcomes support earlier academic excellence and also support alternative pathways through vocational support into apprenticeships.

Our targets

- All students make at least three levels of progress (50% make four levels of progress) between KS2 and KS4 in core Baccalaureate subjects
- GCSE results are 5% above National Average
- 50% achieve the EBacc qualification in 2019 examinations
- All students are expected to reach an attendance target of at least 96%
- All students continue with their education after leaving LEA
- 90% of parents regularly attend progress meetings relating to their child
- 90% of pupils contribute 250 hours to "Big Society"

Curriculum Rationale

LEA is based in one of the most deprived local authorities in England and Wales. The large majority of the population live in social housing and has well above the national average for Free School Meal (FSM). The vast majority of the student population is categorised as English as an additional Language (EAL).

Our curriculum therefore reflects the needs and wishes of the local population which was established during our research phase and whilst meeting individuals, groups and community and business representatives when collecting data to establish demand for the school.

It is clear from talking to parents that they want the best possible education for their children which prepares them for a good career in the local financial and business sector of London. One parent summed this up by saying "education is our only way out of poverty".

The curriculum at the LEA reflects our vision, ethos and principles.

- It encourages our students to become independent enquirers, collaborative thinkers and critical citizens.
- The curriculum includes the **core curriculum** and an **extended enrichment** curriculum for all students.
- The students follow a modified version of the National Curriculum at **Key Stage 3** with a view to supporting the students into their studies for the English Baccalaureate at **Key Stage 4**.
- At the heart of the learning is the **thematic based enterprise curriculum**.

The **core curriculum** is taught in single lessons of 50 minutes and doubles of 100 minutes from 8.45 am until 3.10 pm Monday to Friday with **Enrichment** curriculum from 3.10 to 4 pm Tuesday to Thursday.

The Enrichment curriculum gives the students an opportunity to take up an active enrichment in the form of an active PE/Healthy lifestyles curriculum such as sports and martial arts; a creative enrichment which develops their talents or expressive side; academic enrichment focusing on new learning and interventions to support bridging learning gaps.

Key Stage 4

This key stage commences in year 9. The students make their option choices in year 8. We initially recommend our students to follow the subjects for the English Baccalaureate. Our range of option choices are wide, considering the small size of our school. With subjects such as Business, Economics, Art, and Sociology proving to be very popular

The three-year Key Stage 4 also gives the students a chance to deeply embed their learning. In addition, there are opportunities for students to take a range of pathways which will support and extend learning which may lead to some of the students taking GCSEs earlier and then follow an AS programme.

Our students are expected to take the following subjects:

- English
- Mathematics
- Double Science
- History or Geography (option 1)
- A Language (French, Spanish or a home language GCSE) (option 2)
- Religious Education
- Physical Education
- Citizenship
- Enterprise
- Enrichment
